HONEY THROUGH HISTORY

He who by Bees doth ever thinke to thrive,
Must order them, and neatly trim his Hive.

The ordering of Bees:
OR, THE
TRVE HISTORY
OF MANAGING THEM
From time to time, with their hony
and waxe, shewing their nature
and Breed.

As also what Trees, Plants, and Hearbs are
good for them, and namely what are hurtfull: toge-
ther with the extraordinary profit arising
from them.

Set forth in a Dialogue, resolving all doubts
whatsoever.

By the late unparalelled experience
of
IOHN LEVETT, Gent.

LONDON,
Printed by Thomas Harper, for John Harison. 1634.
